

Air 1 to me is such a positive instrument in my life. It keeps me connected to walking with the Lord and staying focused on being a good positive example to my children. Please don't take this awesome radio station away from so many people who truly look forward to driving the freeways with so many negative people. I can tell you that should Air 1 go off the air...I will no longer listen to the radio at all. I'll put in CDs instead. Because there is no other radio station as powerful and uplifting as this one. So many people still out there have not been touched by this station and hopefully one day they will stumble on it and their life will change just by the positive lyrics they'll hear. It's so different from other music. Please don't take it away from so many of us that depend on it to keep us going. Lives are truly changed daily because of it and they also provide prayer for anyone who calls in and asks for it. I will never ever listen to another radio station. I'm an Air 1 fan for life. Thanks and God bless!
